Report of goat farming (2018-2019)

To enhance the employable skills, employability, self- dependency the department of zoology always organizes visits to goat farming centre, Sisalwadi, Tal: Palus, Dist.: Sangli. This farm is enriched with a variety of Goat Breeds such as Sanen, Jamnapari, Osmanabadi, Boer, Barberi, Beetal, Malbari, Surti, Sirohi etc.

Sisalwadi Goat Farming is located at Palus Tehsil, the total area of farm is 5500 sq.mts. The breeds of farm are mainly used to encourage the earning source of the farmers in the vicinity. As these breeds are famous for more yield of milk and meat, the farmers from all over Maharashtra, visit this farm and frequently they purchase the goats for breeding purpose.

The students have studied the feeding habitat, breeding habitat, rearing of young ones of the goat, their morphology, caring of the goats etc. the students get motivated to establish their own goat farm so that they will earn for their future.
