

INSTITUTIONAL DISTINCTIVENESS

2018-19

1. The Performance of the Institution in one area distinctive to its vision:

As our vision is “Education to all the classes of society, especially to the downtrodden, economically and socially backward sections of society”. Now there is a need to reconsider the present education at all its levels. The globalization and liberalization have changed all the concerns and references. It is necessary to deviate from the traditional methods and use the new methods and technology for imparting education. In this view, the institution has actively started the process of adjusting with new trends and this stands our distinctiveness.
