**Policy Statement on Waste Management**

**Introduction**

Waste management is important because improperly stored refuse can cause health, safety and economic problems. To prevent damaging the ecosystems and maintain a high quality of life, humans must manage and store their waste efficiently and safely.

Arts, Science and Commerce College, Ramanandnagar (Burli) has deep concern to protect environment, health and well-being through implementation of effective waste management practices such as segregation, recycling, and composting. It is segregated and disposed of properly to the Jath Nagar panchayat sanitary department.

**Objectives:**

- To contribute in environment protection and sustenance through the initiatives like cleanliness drives and proper disposal of waste material
- To instill values of proper disposal of waste material among the students and stakeholders
- To make the campus plastic free
- To conduct lectures and awareness programmes on waste management and environment protection

Solid Waste Management Policy

**A) Degradable Waste Management:**

- Biodegradable kitchen waste from Canteen, Horticultural waste such as dried leaves, twigs be collected from all around the campus and used for vermicomposting.
  - Use of dustbins throughout campus for waste segregation
- Waste food and leftover of canteen be used for biogas plant.
- Digitization of office procedures through electronic means via WhatsApp group, email and Google classroom; thus, reducing paper-based waste.

**B) Non-Degradable Waste Management:**

- Waste like plastic, metals, glass, and stationery are to be systematically collected
- The collected non-degradable waste has to be segregated and sold to authorized vendors for its recycling.
