Report on Diagnostics

The Department had conducted a diagnostic test on the taught topic. 69 students were appeared for this test. According to the marks of students secured in the test, we made advanced and slow learners batch. Students obtaining 60% and above marks are categorised as advanced learners and remaining students i.e. below 20% were identified as slow learners.

Faculty members of the department were actively engaged in improving the quality of students who are weak in result and study. They were given extra coaching with regards to theory and practical's of the syllabus.

- **Specialized course for advanced learner**

- 1 Free of cost internet facility in the library and the department.
2. Departmental library facility to encourage subject reading.
3. Knowledge bank (video lecture) is provide to students on college website in the form of U-tube.
4. Organisation of seminar Activity.
5. This course delves into the mechanisms of organic reactions, stereochemistry, and synthesis strategies for complex molecules.
6. Focusing on the properties and reactions of inorganic compounds, this course covers topics such as coordination chemistry, bioinorganic chemistry, Solid-state chemistry.
7. Expanding on thermodynamics, kinetics, and quantum mechanics, this course explores advanced topics such as molecular dynamics simulations

- **Specialized course for slow learner**

1. This course provides a comprehensive introduction to fundamental concepts in chemistry, including atomic structure, chemical bonding, stoichiometry, and basic chemical slow learners. Teachers can tailor instruction to meet individual needs, address reactions
2. Developing individualized learning plans for slow learners can help identify specific areas of weakness and tailor instruction to address these needs.
3. Providing small group instruction allows for more personalized attention and support for misconceptions, and provide additional practice opportunities as needed.
4. Extra lecture has been given for understanding the basic concept in the Subject.
5. Organization of poster presentation and exhibition on occasion of national science day by science association.
6. English and Marathi explanation and discussions for better Understanding.
